

Essential Skills you will need for your Career Pathway

The fourteen skills described below are identified by Human Resources Development Canada as “essential skills” through research and interviews with over 3,000 Canadian workers. These skills are used to varying degrees in virtually all occupations; they are not the technical skills required by specific occupations. People in all types of jobs need to be able, for example, to read, to make decisions, and to solve problems. They also need to develop such general skills for use not only in the workplace, but also in everyday life and for lifelong learning.

- **Reading**...the comprehension of text consisting of sentences and paragraphs
- **Writing**...the preparation of written materials for a variety of purposes
- **Use of documents**...the use of labels, lists, signs, graphs, charts, tables, forms, and other similar materials
- **Use of computers**...the use of any type of computerized technology
- **Money math**...the use of mathematical skills in making financial transactions, such as handling cash, preparing bills, and making payments
- **Scheduling or budgeting and accounting**...planning for the best use of time and money, as well as monitoring of the use of time and money
- **Measurement and calculation**...the measurement and calculation of quantities, areas, volumes, and/or distances
- **Data analysis**...the collection and analysis of data in numerical form
- **Numerical estimation**...the production of estimates in numerical form
- **Oral communication**...the use of speech for a variety of purposes
- **Job task planning**...the planning and organization of one's own work
- **Decision making**...the making of any type of decision, using appropriate information
- **Problem solving**...the identification and solving of problems
- **Finding information**...the use of a variety of sources, including written text, people, computerized databases, and information systems

Cambrian College Admission Requirements

OSSD or equivalent or mature student status, including:

- Grade 12 English (C), (U) or (M)

Program description

Students will study a range of disciplines including lighting, sound production, costume management, stagecraft, set painting, prop making and rendering, special effects, and stage management techniques. The emphasis is on applying theory in practical situations while working safely in the theatre environment. Cambrian College offers the only two-year technical theatre program in Northern Ontario.

Theatre Arts Production
