

Full Day Early Learning-Kindergarten

This program aims to provide every child with the supports he or she needs in order to develop independence, confidence and competence in learning, a sense of security, and respect for diversity.

What to Expect in the Fall?

- A less hurried, more relaxed pace for children
- Time for children to grow, learn and develop
- Same age, older and younger classmates
- Expectations matched to the age and stage of the learners
- Opportunities for teaching teams to get to know the children better and to support their learning
- Plenty of play based learning opportunities to explore, problem solve, dramatize, paint, design, sing, dance and laugh
- A day that accommodates for energy levels of children; that includes active times both inside and outside the classroom; quiet times listening to music and stories.
- Strong foundations for future learning in literacy, numeracy, science, art, physical challenges and social relationships will be built in a program that celebrates children and the joys of childhood

The program will grow with the children.

Routines and rules will be established with the children.

Learning will become increasingly more challenging and more complex over time.
