

# Spinning For Doubles

## **Materials:**

Spinning for Doubles Game Board

Spinning for Doubles Spinner

20 Counters

Paper Clip and Pencil

## **How to Play:**

Play with two players. Player one spins the spinner and doubles the number shown. If that space is available on their side of the game sheet, a counter is placed on top of that number (e.g., if a player rolls 3, they put a counter on 6). If a counter is already on that space, the player misses their turn. The game continues until one player has filled in their side of the game sheet.
