

Triplet Concentration

Materials:

Triplet Concentration Game Cards

How to Play:

Cut the game cards apart. Place them face down in rows and columns. Player one turns over three cards and tries to find equivalent representations of a fraction, decimal number, and percent (e.g. $\frac{1}{4}$; 25%, and 0.25). If all three cards represent equivalent values, the player keeps the cards. If two cards are equivalent player leaves these cards face up and turns the third card face down. If a subsequent player finds the card with an equivalent value to the face up cards they can take all three cards. Play continues until all the cards have been matched.

Triplet Concentration Game Cards

$\frac{1}{2}$	0.5	50%
$\frac{1}{4}$	0.25	25%
$\frac{3}{4}$	0.75	75%
$\frac{1}{10}$	0.1	10%
$\frac{1}{5}$	0.2	0.2%

$\frac{3}{10}$	0.3	30%
$\frac{2}{5}$	0.4	40%
$\frac{3}{5}$	0.6	60%
$\frac{7}{10}$	0.7	70%
$\frac{4}{5}$	0.8	80%
