

Submission of Jean-Marc Chayer

Re: Accommodation Review of Warren Central P.S.

I, Jean-Marc Chayer, Mayor of the Municipality of Markstay/Warren and member of the Accommodation Review Committee would like you to reconsider Option F of the ARC Committee Report for the students of Warren Central P.S. to co-locate at St. Thomas, to reinstate grades 4,5 and 6 and to include Hagar in Warren Boundaries.

On the economic side, it is important for the town of Warren to be able to offer public as well as separate education to the people who reside here and to new people moving into the community.

As mayor, I plead with you to please reconsider and give the town of Warren a fair chance at new beginnings by having both a separate and public school to offer the residents of this town.

The presence of public education in Warren is paramount to the present economy and to the longevity of the community in years to come.

I thank you in advance for reconsidering the co-location of Warren Central P.S. in St. Thomas. Should the decision be one of co-location it is guaranteed that the people of this community will be forever grateful to you for being able to keep what has always been ours and remains our right to keep.....the choice of public education in the town of Warren.

Thank You,

Jean-Marc Chayer
