1.11 Summary

Why do students choose this school?

- **Close to home (not on a bus for 30 minutes)**
- **Majority of friends attending LDSS**
- **Integrated Technology Program – love the idea of hands on learning**
- **Small**
- **Sports Programs – Lots to offer**

What is unique about this school?

- **Smaller Community-based school**
- **Specialist High Skills Major – only 1 of two pilot programs in Ontario**
- **Integrated Technology Program**
- **All inclusive program offerings**
- **1 of 2 high schools in the board with 4 shops**

What is the value of the school to students?

- **A local school close to all community facilities**
- **Able to participate in after school sports programs as students are close to home**
- **A caring small school – all teachers familiar with all students**
- **Close connections to feeder schools – we know the students' needs/interests as they make the transition from grade 8 to grade 9**
- **A feeling of belonging**
- **An ability to get involved in all aspects of school life – ie. Students council, sports, extracurricular clubs etc.**

Additional Comments:

Specific needs in education in mining related fields are reflected in the growth of Laurentian's undergraduate and post graduate science and tech programs.

"We think that LDSS is best for our child because he has done very well at Lively High. He has been an Elite Scholar for every semester since grade 9 through Grade 12. We live in Lively and our son does not have to be bussed to and from school. He can walk. He has access to teachers after school without worrying about missing a bus and he has taken part in many after school sports with all their numerous practices. We really like the fact that we know our son's teachers and many of the families of the other students that attend Lively DSS."
Jane and Paul Sajatovic

"We as parents value Lively High for two important reasons: the courses offered and it being a community school. We chose Lively High because of the IT program. This program will enable our son to experience different avenues of technology to help him decide on a path to post secondary education, whether college and/or university, then to a career. We also choose Lively High because it is the high school in our community which is very important to us and our son. He feels safe and comfortable at LDSS. He knows many of the students and many students know him because he is a graduate of Jessie Hamilton PS and he has played hockey with many of the students throughout the years. Since it is a community school the transition from gr. 8 to gr. 9 has been smooth and very positive for our son. The teachers and staff and LDSS are approachable and are willing to help our son achieve his school goals whether it be sending an email to let us know how he is doing in school or taking the extra time to explain to him about the school work he is learning. Our son is having a great experience at LDSS."
Mark and Kim Peura

3.5 Summary

What is the value of the school to the community?

“As a minister in the Lively Community, I experience a great deal of the positive collateral impact of LDSS. Lively High generates students who are deeply involved in their community, who are dedicated to learning and meaningful citizenship.

While there have been significant questions in the past about the continued viability of our high school, I would encourage members of the Rainbow District School Board to look to the startling demographic shifts taking place in the Lively area. Our church community has benefited from a sizeable influx of young families, and I am beginning to suspect that Lively High School may not be adequately prepared for the swell of students it can expect in the not-so-distant future based on the school’s convenient location, its enviable reputation and its unique offerings.

I wish you the best in your review deliberations and hope that you will treasure LDSS as much as we do. “

Rev. Ted Harrison Trinity United Church

“Walden Day Care Centre has been in existence since 1989, and we have seen hundreds, if not thousands of children come and go. Most of these children reside in or around the Walden/Lively area, and have been fortunate enough to live in a community that takes very good care of their early learning and child care needs. Once they’re past this stage, I’m sure that families also feel privileged to have a High School right in their community. From child care to elementary education, from resource to special needs, we have it all. Although I am not a parent, if I did have children, I would want very much to have them attend a high school in their own community. Walden is so good at taking care of their own. It would be a shame to see the children leaving the community to attend High School. Also, over the past 17 years, the children attending Lively District have certainly given back to this community. Whether it’s picking up garbage on Earth Day, working at Tim Horton’s to make money to attend College/University, or working part-time in one of the Best Start programs for Walden Day Care in our local schools, they make a difference! I grew up in a small mining Town, and spent my High School years being bused into Sudbury. If I would have had the opportunity to attend a High School in the little town where I grew up, it would have made a very positive difference in my life. Walden Day Care Centre would certainly miss having Co-op students on placement, and the community would certainly lose the opportunity to make a difference in their young adults. I hope the responsible adults making the decisions think twice before closing our local High School. “

Terry Deforge-MacKean – Walden Day Care

Additional Comments:

“Lively District SS is the fabric from which this community is built, allowing our children to continue their secondary education in a comfortable environment, close to home. This school has also been the focal point of local sports and has been a “top notch” educational institution from which many regionally, nationally and internationally recognized people have graduated.” *Jacques Barbeau Councillor Ward 2*

The Walden-CAN is encouraged that the ARC- Sudbury West process over the months ahead will engage the communities of Walden and provide opportunities for input. Being responsive to the needs of the community - with students first & foremost- is strongly supported by Walden-CAN. Strong collaborative working relationships with our elected representatives and CGS Staff and the Rainbow School Board are integral in the community building process.

Historically, Walden, (the largest geographical Town in Canada) had several community schools within its boundaries that in large part fed the Lively DSS. The geography hasn’t changed. We realize that demographics have changed, that some school facilities are aging and in some cases are overcrowded. The 2007 Board review is seen by the Walden-CAN as an opportunity to work with the

Accommodation Review Committee to ensure that the final decisions support the Goal of responding to the needs of the communities of Walden- with students first and foremost.

Thousands of families have chosen to live in Walden because of the life-style - a mix of urban & rural living in a vibrant, growing and healthy community. Access to education from pre-school to secondary school is vital to our communities in Walden.

We look forward to becoming involved in the process over the months ahead.

Richard Bois, Gwen Doyle, Co-Chairs – Walden CAN

On behalf of the Whitefish First Nation, we have currently 20 elementary and 11 secondary students attending public schools in the Sudbury West area. With the anticipated growth of our community and the development of a new subdivision, there is potential for new students in the area. We are in full support of keeping the public schools in the area open.

The area secondary and elementary schools have benefited our students in these ways:

- Decreasing the travel time for our secondary students
- The specialized and enriched programs in Integrated Technology which are of great interest to our students
- Small community schools are appealing to our parents
- Parent satisfaction with the school's commitment to academic excellence and good communication.
- The values of area schools are similar to our seven grandfather teachings, which reinforces our teachings

Kimberly Nootchtai Education Coordinator

4.2 Local Development

Is the school an asset to the local housing development?

The presence of a school is an asset.

For families with children, proximity to a school, length of school bus trips, etc... are a consideration in choosing a home.

"In the last five years Dalron has constructed an average of 15 home +/- in Walden. This same rate is predicted for the next 5 years. This may increase if the economy remains strong"

From Dave Arnold (Dalron)

30 new houses Whitefish area

Is there public transportation available to the training site?

Yes No

4.5 Growth/Reduction

List plans for further commercial/industrial growth/reduction?

The mining sector of our economy

continues to be strong and that this increases the potential for mining related industrial development. The Walden Industrial Park and the Fielding Road areas are both attractive for mining services due to the proximity to CVRD Inco and existing mining service businesses.

Specific needs in education in mining related fields are reflected in the growth of Laurentian's undergraduate and post graduate science and tech programs.

4.6 Summary

What is the value of the school to the local economy?

"I attended Lively High as did my children. As the owner of Pinehill Lumber and a local business owner, I have been privileged to meet and employ a number of great students (past, present and hopefully future) from Lively. Any one of these students would not hesitate to say what Lively District Secondary school means to them. Lively has given students the opportunity to benefit from a great educational experience that is close to home; even for students from more rural areas. Being such an accessible school, Lively provides students a great chance to get involved in the many extra curricular activities offered. These opportunities might not be present if students were to travel to Sudbury to other schools each day.

It is imperative that Lively DSS remains open for the betterment of our students and our community."

Jack Blackwell Pinehill Lumber

Additional Comments:

"We need to keep the local Secondary school open from a business perspective. Tim Hortons (Lively) is a great place for many of the students to enter the work force. It gives them an idea as to what is expected from future employers. We need these students to fill the part-time positions of after school and weekends.

If the school were to be moved out of town, they wouldn't be able to work here, as many are not able to drive yet. They would be deprived of saving for post-secondary education and this process is essential to be a vital and productive part of our community"
