The YMCA of Northeastern Ontario – Settlement Workers in Schools (SWIS) program is committed to supporting newcomer students and their families in their process of settlement within their schools and communities in the Greater Sudbury region. In partnership with local schools, the SWIS worker will support newcomer students and their families to learn about and integrate into their new school and community. This referral can be completed to allow the YMCA the opportunity to begin the initial settlement process for newcomer students and their families and provide them with easier access to services with the educational system.
